

John Kevin LEFFE GABARY

Junior Actuary | Statistician | Data Analyst

Rue Saint-Pierre, 1000 Brussels | +32 465 13 84 73 | johngabary@gmail.com

Profile

Junior Actuary with hands-on experience in non-life pricing, profitability analysis, and predictive modeling. Skilled in R and Python, with a strong interest in data science applied to insurance. I enjoy using technical tools to support decision-making and improve pricing strategy.

Professional Experience

Junior Actuarial Consultant

Act-unity s.a/n.v, Belgium

August 2024 – Present

- Supported the renewal and adjustment of group insurance contracts.
- Performed actuarial analyses of defined contribution and defined benefit pension schemes.

Actuarial Intern

Europ Assistance Belgium, Brussels

December 2023 – July 2024

- Built Power BI and Excel dashboards for monitoring travel, motor, and cancellation assistance products, reducing reporting time by 30%.
- Developed GLM pricing models with AKUR8 to assess claims costs, improving pricing efficiency by 20%.
- Conducted sensitivity analyses to evaluate multiple pricing scenarios, contributing to a 12% increase in operational margin.

Technical Skills

Languages and Tools: Python, R, SQL, VBA, SAS

Data Visualization: Power BI, Tableau, Excel (Power Query)

Modeling Techniques: GLM, GAM, Random Forest, Gradient Boosting

Actuarial Topics: Non-Life pricing (Motor), profitability analysis, segmentation, reporting

Certifications in Progress: Data Science with Python and R (machine learning, modeling, visualization)

Education

Master's Degree in Actuarial Science

Université Libre de Bruxelles (ULB), Belgium

2021 – 2024

Master's Degree in Mathematical Economics

University of Dschang, Cameroon

2020 – 2021

Languages

French (Native)

English (Intermediate – B1 level)
