

John Kevin LEFFE GABARY

Junior Actuary | Statistician | Pricing Analyst

Rue Saint-Pierre, 1000 Brussels | +32 465 13 84 73 | johngabary@gmail.com

Profile

Junior Actuary with strong interest and hands-on experience in non-life pricing, profitability analysis, and actuarial modeling. Skilled in R, Python, and Excel/VBA, I enjoy combining analytical thinking with business sense to deliver accurate and actionable pricing insights. Currently aiming to deepen my knowledge predictive modeling within a technical environment.

Professional Experience

Junior Actuarial Consultant

Act-unity s.a/n.v, Brussels

Since August 2024

- Participated in the renewal process of group insurance contracts (pension, death, disability).
- Checked formulas and validated results of actuarial calculations.

Actuarial Intern – Actuarial Department

Europ Assistance Belgium, Brussels

December 2023 – July 2024

- Built dashboards (Power BI, Excel) to monitor the performance of travel, motor, and cancellation products.
- Developed GLM pricing models using AKUR8 to estimate claim costs and support product repricing.
- Performed sensitivity analyses and pricing simulations, contributing to technical margin improvement.

Technical Skills

Programming: Python, R, SQL, VBA, SAS

Data Visualization: Power BI, Tableau, Excel (Power Query)

Modeling Techniques: GLM, GAM, Random Forest, Gradient Boosting

Actuarial Topics: Non-life pricing, segmentation, claims modeling, profitability analysis

Certifications in Progress: Training in predictive modeling (Python & R)
